Profile

AI Creator producing visual content for products, advertising stories and virtual characters. I create images, short videos and virtual-character content. I work with references, iterative refinement and feedback. Looking for an AI Creator or assistant role in AI production, visual content or e-commerce.

Practice & portfolio

Personal practice projects · 2026

- 7 fictional product concepts covering clothing, skincare, packaging, jewellery, furniture, home and pet products.
- Product photography: catalog views, details, interiors and lifestyle scenes.
- Short vertical films: references, keyframes, model comparison, selection, editing, music and export.
- 2 talking episodes with fictional characters, designed synthetic voices and cutaway shots.
- Feedback-driven iterations on packaging, text, product details, hands, motion, speech and music.

Skills

References and prompting · image and video generation · product and character continuity · selection and revisions · vertical editing · audio preparation and export.

Product imagery · lifestyle · visual continuity · advertising films · synthetic characters

My contribution: brief direction, reference selection, curation, feedback and refinement of the visual result.

Work interests

AI Creator, AI production assistant or visual content creator. Open to a focused test assignment and a process walkthrough.

The portfolio contains practice concepts. No commercial clients, sales or reach are claimed.
